TERMINOLOGY

A semester is half an academic year. Each academic year has an Autumn Semester which begins in September and a Spring Semester which begins in February.

Units are graded from 16 (highest pass) to 4 (lowest pass). The following codes may also be used:

U = semester abroad

X = exempt

T = first half of a long-thin or double unit taken over two semesters

P = passing grade achieved after reassessment

C = failure which has been compensated.

A credited unit is a unit in which a student has been formally exempted, or awarded a specific grade point score, in respect of achievement on another course or prior experiential learning. Such credit units are identified by the code CR.

Each full, standard size unit is equivalent to 15 credit points. Full-time students at London Metropolitan University (London City campus) normally take four standard size units per semester and eight per year.

Please note that London Metropolitan University was formed by a merger of London Guildhall University and the University of North London on 1 August 2002.
