Personal profile

A self-motivated and easily adaptable to the dynamic changes taking place within the large Kenya School of Government. I am focused in seeing duties completed within specified time as described by my job description in my current appointment. I have managed to establish a good customer relationship in my daily interactions which has earned the Campus a reputable name in and outside its premises.

Achievements

- Successfully lead maintenance team in uplifting the status of the Campus Hostels by painting exterior and interior walls.
- Raised broilers and layers which were instrumental in cutting costs and raising extra revenue for the Campus.
- Established a tree nursery with a population of 5000 seedlings thus surpassing the 3500 directive for institutions.
