PROFESSIONAL PROFILE

I am an Experienced and dedicated Information and Communication Technology professional with a passion for Training and a strong background in modern technology. I enjoy being part of, as well as leading, successful and productive teams. I am quick to grasp new ideas and concepts and to develop innovative and creative solutions to problems. I am able to work well on my own initiative and can demonstrate the high levels of motivation required to meet tight deadlines. I possess a strong ability to perform effectively. I'm an ambitious, hardworking and analytical person who embraces teamwork as standard practice, and with a quest to work in a more challenging and demanding environment. Above all, I'm God-fearing, honest and a person with integrity. I'm highly adaptive to new skills and technologies and able to work with minimal supervision.

OBJECTIVE

I am now looking to build on my extensive range of technical skills within a suitably challenging role and work in an organization that may utilize my professional skills acquired for the maximum benefit of society, and reinforce the skills with practice. I am keen to achieve further professional development.

KEY TECHNICAL SKILLS

- Proficient in programming languages such as Java, Python, C++, and JavaScript.
- Strong knowledge of hardware and database management systems, including SQL and NoSQL databases.
- Expertise in network security principles and practices.
- Familiarity with cloud computing platforms and services, such as Amazon Web Services (AWS) and Microsoft Azure.
- Excellent communication and interpersonal skills, fostering effective participant engagement and collaboration.
- Strong analytical and problem-solving abilities, enabling effective troubleshooting and solution development.
- Proficient in instructional design and curriculum development.
- Up-to-date with the latest trends and advancements in the ICT industry.
