Dear Sir,

**Re: Application for the Position of Assistant Director, ICT & E-Services (ADICTS/30/2024-25)**

I am writing to express my interest in the position of Assistant Director, ICT & E-Services at the Kenya School of Government, as advertised. With over 15 years of progressive experience in ICT management, policy development, and digital transformation in the public sector, I am confident in my ability to contribute effectively to the School's strategic goals and operational excellence.

In my current role as Principal ICT Officer at the Kenya School of Government – eLearning and Development Institute (eLDi), I have successfully implemented ICT policies, managed digital infrastructure, and coordinated the deployment of automation tools and cloud services. My expertise in designing cybersecurity measures, ensuring data integrity, and implementing disaster recovery strategies aligns seamlessly with the responsibilities outlined in the job description.

Key achievements in my career include:

- Leading the development and implementation of the Data Protection Online Program for GIZ, which involved creating technical specifications, digitizing content, and ensuring secure deployment on the LMS.
- Designing and implementing an interactive multimedia computer laboratory and video conferencing system for the Somali Capacity Injection project, enhancing the delivery of ICT-related instruction in remote locations.
- Coordinating capacity-building initiatives for staff in cybersecurity, data analytics, and digital transformation, fostering a culture of innovation and continuous improvement.

I hold a Master of Business Administration (Strategic Management) and a Bachelor of Commerce (Management Information Systems) from Daystar University, complemented by certifications in cybersecurity, AI, and ISO 27001:2013. My academic and professional background equips me with the technical expertise and leadership skills necessary to excel in this role.

I am particularly drawn to this position because of its emphasis on leveraging technology to enhance the School's service delivery and achieve sustainable development. I am eager to bring my experience in managing ICT infrastructure, securing digital assets, and fostering innovation to the Kenya School of Government. I would welcome the opportunity to discuss how my qualifications and experiences align with the needs of your institution. Thank you for considering my application. I look forward to the possibility of contributing to the success of the Kenya School of Government.

Yours faithfully,

Kisinga Timothy Kitheka
