Work Experience

Employer	Job Title	Country	Start Date	End Date	Location	Job Description	Duties and Responsibilities
Kenya School of Government	PICTO	Kenya	01 Oct 2018	07 Apr 2025	eLearning & Development Institute (eLDi)	1. Supervised and mentored a team of seven ICT Officers, driving departmental performance. 2. Actively contributed to strategic institutional direction through participation in multiple key committees (Quality Management Rep, National Cohesion Champion, Performance Contract Champion, Data Protection, Digitization). 3. Implemented and enforced ICT policies, strategies, and standards within the institute, ensuring compliance and operational efficiency. 4. Contributed significantly to the development and planning of the ICT budget, aligning resources with strategic goals. 5. Spearheaded the successful development and launch of the Kenya School of Government's Learning Management System (LMS), transforming training delivery especially during the Covid 19 pandemic. 6. Led the creation and integration of digital content for the LMS. 7. Guided the development of customized software solutions to meet specific institutional needs, enhancing efficiency e.g. online asset register. 8. Implemented and managed robust LAN/WAN infrastructure, ensuring uninterrupted connectivity for all users and systems. 9. Managed the configuration, testing, and upgrading of hardware, software, and network systems for optimal performance and stability. 10. Implemented best practice ICT Business Continuity and Disaster Recovery (BCDR) strategies, by ensuring cloud and local backups are available to safeguard critical operations and redundancy. 11. Enhanced cybersecurity posture by implementing and managing robust security systems to protect the Institute's assets. 12. Supervise the maintenance and updating of the institute's website and other customer-facing systems for accuracy and user experience. 13. Managed user accounts efficiently and securely within the Active Directory environment. 14. Facilitated ICT modules, including Cybersecurity, for various KSG training programs, contributing directly to the training mandate. 15. Provided expert input into curriculum development for programs with ICT components. 16. Delivered essential technical support, training, and guidance to staff, facilitators, and participants, particularly on the LMS. 17. Remain current with emerging ICT trends, providing recommendations for continuous technological improvement at KSG and directly to consultancies and projects.	1. Implementing ICT policies, strategies, regulations, standards and procedures 2. Configuring and testing computer hardware, networking software and operating system software; 3. Installing necessary hardware and software upgrades into ICT networks; 4. Creating new users in the Active Directory following laid out policies; 5. Implementing digital solutions, such as automation tools, cloud services, and data analytics; 6. Implementing LANs and WAN to ensure uninterrupted connectivity to School's systems and online resources; 7. Updating the School website and other customer facing systems; 8. Implementing ICT business disaster recovery strategy; 9. Implementing security systems to secure the School's ICT assets and systems; 10. Providing technical support services, guidance and training to computer users on School ICT systems 11. Keeping up to date with emerging information communication technological trends.

Employer	Job Title	Country	Start Date	End Date	Location	Job Description	Duties and Responsibilities
Kenya School of Government	SICTO	Kenya	01 Nov 2016	30 Sep 2018	eLearning & Development Institute (eLDi)	1. Consistently ensured adherence to and implementation of all established ICT policies, strategies, regulations. Actively reviewed and updated ICT procedure manuals and operational standards to ensure they remain current and effective. 2. Successfully configured, tested, and maintained a wide range of computer hardware, network infrastructure components ensuring optimal performance and reliability of the Institute's ICT environment. 3. Managed and executed numerous hardware and software upgrades across the network infrastructure, including server upgrades, OS patching, application updates. 4. Efficiently managed user lifecycle processes within the Active Directory environment, including the creation, modification, and deletion of user accounts. 5. Configured and operated video conferencing equipment, ensuring seamless virtual meetings and training sessions. 6. Managed and executed numerous hardware and software upgrades within the ICT network, enhancing capabilities, security, and performance. 7. Efficiently and securely managed user lifecycle processes within the Active Directory for user creation, modification, and access control for all staff at the institute. 8. Developed and supervised the creation of in-house web applications such as the room booking reservation system. Guided the development of other customized software solutions. 9. Actively troubleshooted and maintained the Local Area Network (LAN) infrastructure, ensuring reliable network performance and minimizing downtime for access to internal systems and online resources. 10. Consistently updated the institute social media pages, ensuring information accuracy, functionality, and a positive user experience. 11. Ensured the regular and successful backup of all critical institutional data, safeguarding the institute against data loss. 12. Implemented and managed essential security systems (firewalls, endpoint security), significantly strengthening the protection of the Institute's digital assets, systems, and data against cyber threats. 13. Provided comprehensive technical support and guidance across various ICT systems. Delivered technical support specifically to facilitators and participants during live training sessions, ensuring smooth delivery of programs. Also provided dedicated support to all users on the Dynamics NAV 2017 ERP system, resolving issues and facilitating its effective use. 14. Proactively researched, evaluated, and recommended emerging ICT trends relevant to the strategic direction of the institute e.g. upgrading of the video conference system	1. Implementing ICT policies, strategies, regulations, standards and procedures; 2. Configuring and testing computer hardware, networking software and operating system software; 3. Installing necessary hardware and software upgrades into ICT network; 4. Creating new users in the Active Directory following laid out policies; 5. Implementing digital solutions, such as automation tools, cloud services and data analytics; 6. Implementing LANs and WAN to ensure uninterrupted connectivity to School's systems and online resources; 7. Updating the School website and other customer-facing systems; 8. Implementing ICT business disaster recovery strategy; 9. Implementing security systems to secure the School's ICT assets and systems; 10. Providing technical support services, guidance and training to computer users on School ICT systems; and 11. Keeping up to date with emerging information communication technology trends
Kenya School of Government	ICTO	Kenya	03 May 2010	28 Oct 2016	KDLC	1. Ensured operational readiness through software management. Successfully installed, configured, and maintained essential software applications across the institution, ensuring staff and programs had the necessary tools to function effectively. 2. Directly supported training success through technical assistance. Provided critical, real-time technical support to facilitators and participants during training sessions, swiftly resolving issues to minimize disruptions and ensure a smooth learning environment. 3. Maintained network stability through proactive troubleshooting. Effectively troubleshooted and maintained the Local Area Network (LAN), identifying and resolving connectivity issues promptly to ensure reliable access to shared resources and minimize user downtime. 4. Contributed to program improvement via feedback analysis. Managed the data entry of participant feedback and performed initial analysis, generating valuable summaries that informed program evaluation and identified areas for enhancement. 5. Safeguarded institutional assets through data backup. Diligently executed and monitored the backup procedures for critical institutional data, playing a key role in ensuring data integrity and supporting disaster recovery preparedness. 6. Facilitated departmental communication through report drafting. Drafted clear and concise reports on technical support activities, network status, and feedback summaries, contributing to effective communication and record-keeping within the ICT department.	1. Implementing ICT policies, strategies, regulations, standards and procedures; 2. Configuring and testing computer hardware, networking software and operating system software; 3. Installing necessary hardware and software upgrades into ICT network; 4. Implementing framework and formats to standardize digitization of School's records and procedures; 5. Creating new users in the Active Directory following laid out policies; 6. Implementing digital solutions, such as automation tools, cloud services, and data analytics; 7. Implementing LANs and WAN to ensure uninterrupted connectivity to School's systems and online resources; 8. Updating the School website and other customer-facing systems; 9. Implementing security systems to secure the School's ICT assets and systems;
