Additional Training and Qualifications

Computer Proficiency:

I have excellent skills in the use of the following software: Microsoft office (Word, Excel, and PowerPoint), Koha, Dspace and the social media.

Work Experience

Date: 2018 to date

Institution: Kenya School of Government

Manager, Library Services/Assistant Director, Library and Documentation Services

Duties and achievements:

While holding this position, I have the following duties and responsibilities:

Duties

- Developing, implementing and Reviewing policies, rules, regulations, standards, systems guidelines and procedures on matters library services in the school
- Designing, implementing and reviewing strategies, frameworks, and guidelines to facilitate library services

- Development of procurement plans and specifications for library materials
- Coordinating requisitioning, stocking and maintenance of books, periodicals journals and other reading materials
- Coordinating Cataloguing Classification, indexing shelving and abstracting of books and periodicals
- Ensuring compliance to library rules and regulations in the provision of library services
- Projecting future reference and archiving documents
- Keeping safe custody, security and maintaining library books and other resources
- Managing day to day library operations
- Mentoring and coaching staff in the division
- Coordinate automation and digitization in the library
- Coordinating establishment and maintenance of library database of resources
- Provide leadership to library staff to ensure that the library excels in provision of support for training, learning, research, consultancy and advisory services
- Advise management on human resource issues affecting the library staff to facilitate capacity building and staff development
- Consolidate the school library budget and procurement plan to ensure library requirements are met to enhance efficient service delivery to library users
- Guide on the development and implementation of work plans to enhance service delivery
- Consolidate campus libraries' reports and forward them to the management to inform decision-making
- Communicate management decisions to library staff to ensure that appropriate actions are taken
- Initiate innovations, integration and implementation of new technologies into library services to ensure that the library is up to date with current technological trends
- Review customer feedback to ensure that relevant actions are taken as per the school policies
- Participate in the development of the KSG strategic plan to ensure library issues are captured for action
- To support publishing in the School

Achievements

- I have ensured that the library supports the school mandate by ensuring the availability of adequate and current information resources through the acquisition of books and annual subscriptions to online information resources which include books and journals. The School has access to over 5,000 electronic databases which have been subscribed through the KLISC consortium.
- I have developed procedure manuals to guide library operations. The library quality

management systems are audited by KEBS.

- I regularly assess human resource issues affecting the library and advise the management on required staffing levels and library staff training needs. As a result, the school has recruited qualified professionals to serve in the library and staff receives training in areas that can help improve provision of information services.
- On annual bases, I prepare and submit a suitable budget and procurement plan for the library which enables the procurement of required equipment, softwares and information resources. I submitted a proposed budget and a procurement plan for the financial year 2025/2026
- I have coordinated the development and implementation of library policies and guidelines. I have developed a library policy and guidelines which guide library operations
- On an annual basis, I have coordinated and guided in the development and implementation of library work plans. The library work plan for 2024/2025 financial year is currently being implanted by all KSG libraries
- I do monitoring and evaluation of library information services and library staff performance and compile quarterly reports which are submitted to the management every quarter.
- I communicate management decisions to the library team to ensure necessary actions are taken
- I have initiated innovations and new technologies to improve information services. These include the provision of electronic information resources, remote access to the electronic resources, use of anti-plagiarism to ensure academic integrity in the school, and library automation among others
- I ensure customer feedback is reviewed and actions taken to address any arising issues
- I coordinate the implementation of information literacy in the school
- I have coordinated the development of a knowledge hub in the school
- I have maintained collaborations with key local and international partners in the provision of information services
- I coordinated the designing, implementation and reviewing of strategies, frameworks, and guidelines to facilitate library services. Library guidelines were developed and implemented to guide library operations
- I have coordinated cataloguing and classification of information resources to enhance their accessibility
- I have efficiently coordinated library security in all KSG libraries
- I liaise with campus librarians to ensure rules and regulations are enforced
- I mentor and coach both library and students on internship who work in the libraries
- I have ensured Libraries are automated to increase efficiency in information services
- I have participated in the development of a publishing policy in the school. I have also supported the school in getting the ISSN for the KSG journal and ISBN for books being published by the school

Date: July 2011 to 2018
Institution: Kenya of School of Government (KSG)

Head of Library Services

Duties and achievements:

While holding this position, I provided leadership in the following areas:

Duties

- Development and strengthening of Library Information Management Systems for KSG to facilitate efficient delivery of information services.
- Management of day-to-day Library operations.
- Oversee cataloguing and classification.
- Provide reference and research assistance to all patrons
- development and implementation of knowledge/information management policy guidelines
- establishment of collaborations with key local and international partners in the provision of information services
- development and management of the library budget and procurement plan
- Coordinate collection development in KSG libraries
- training and supervision of library staff and students on attachment and internship
- Ensuring maintenance of all Library facilities and equipment.
- Support Teaching, Research, Consultancy and Advisory Services.
- establish meaningful and measurable goals for organizational accomplishment, and assess outcomes on an annual basis
- develop a culture of accountability through reports
- execute and communicate the Management's strategies, decisions and policies being the link between the Management and Library employees
- being the Academic Boards Advisor on all professional matters pertaining to information, knowledge management and publishing in the school
- Management of electronic resources databases.
- Communicate key management decisions for implementation whenever they arose.

Achievements

- I developed technical specifications of a suitable library information management system and coordinated the automation of the library using Koha software
- I have ensured the efficient operation of all KSG libraries during my tenure
- The library resources have been catalogued and classified to ensure easy access by library users
- I ensured reference services were on continuous bases provided to library users to ensure they were able to access and make use of the available information resources
- I coordinated the development and implementation of library policies and guidelines
- I established collaborations with key local and international partners in the provision of information services notably the Kenya Libraries and Information Services Consortium, the International Network for Advancing Science and Policy (INASP) and the International Federation of Library Association (IFLA) among others
- I developed a library budget and procurement plan annually
- I ensured timely selection and acquisition of relevant and up to date information resources

- I ensured the maintenance of library facilities
- I ensured information literacy was conducted on continuous basis
- I coordinated library work plan development and implementation
- I compiled quarterly reports on implemented library work plans
- I have effectively managed subscription and usage of electronic information resources in the school

2004 to July 2011: Africa Nazarene University
Post: Senior Librarian

- Identifying patron's information needs
- Selecting and acquiring relevant information resources
- To set up a reference desk
- To provide reference service to library patrons
- To train on information literacy and promote use of electronic information resources
- To subscribe and provide access to electronic information resources
- To monitor and evaluate the use of electronic information resources
- Induct interns to library operations
- To supervise the user service section
- To set up and head a special collection section
- To promote use of information resources
- To coordinate library automation
- To develop information literacy curriculum
- To coordinate development of library policies
- To supervise staff in all library sections
- To represent the library in distance education committee.

Achievements

- I ensured all relevant information resources were purchased in both print and electronic formats and those that were not available in the market were either replaced with alternatives or accessed from online sources and other libraries and information centers. Over this period, many library users commended me for the good work I did for them as the library provided the best services.
- I coordinated information processing ensuring quick release of processed information resources
- I steered the development of various university library policies.
- I set up a reference desk and provided reference services to library patrons.
- I taught information literacy skills to library users to advance their skills in information use
- I played a key role in electronic journal subscription
- I monitored and evaluated the use of library information services
- I promoted use of electronic journals/books in the University and conducted various training sessions in the use of electronic resources
- I trained interns in all library operations.

- I supervised the user service unit ensuring patrons are given satisfactory services. During this period, the library was heavily used and users were well equipped with excellent information search skills with many of them becoming independent in their search for information.
- I set up a special collection section in the library
- I promoted use of special collection.
- I automated the library
- I developed and implemented information literacy curriculum

Workshops and Seminars attended and facilitated:

- I facilitated Journal establishment workshop in March 2018
- Research and Publishing workshop 2016
- Strategic planning workshop in 2013
- Procurement workshop in 2012
- Open access workshop in 2012
- Institutional repositories workshop in 2012
- Web designing workshop in 2012
- I trained faculty on the access to electronic databases in a workshop held on July 2011
- Knowledge Management Workshop at U.S. Embassy on February 26, 2009
- Greenstone workshop on 27 march 2009 organized by the Kenya Information preservation Services (KIPS)
- Information Literacy workshop (19th-21st October 2009)
- KNET Workshop on 'Harnessing and Using Local Knowledge for Development' on 30/11/09
- Seminar on writing of research proposals on 12th July 2007
- Kenya Library Association conference held on 30th - 31st May 2007
- Faculty workshop held on 24th February 2007
- INASP (International Network for the Availability of Scientific Publication) workshop held in the University of Nairobi on 19th to 21st September 2005 entitled enhancing use of E-resources by researchers
- I facilitated the workshop entitled “Working together to support Teaching, Research and Learning: optimizing the use of Libraries in the information age” on 3rd January 2006. Through this workshop, faculty members encouraged their students to use electronic journals/books. On several occasions, I attended and actively participated in various workshops and seminars notably
- I facilitate KSG programmes on leadership, knowledge management and records management

2004: January: Kenyatta University

Position: Trainee Librarian

Duties

During attachment, I performed the following duties:

- ❖ Indexing and abstracting: I practiced indexing and abstracting in Kenyatta University library where I indexed and abstracted a substantial number of newspaper articles for use in the library.
- ❖ Reference services: I was given an opportunity to provide reference services where I put into practice the skills I had acquired during my training.

- ❖ Organizing information resources in the library: I organized library resources by arranging the processed books in their right order on the shelves (shelving).

2002: International Livestock Research Institute (ILRI) library

Position: Trainee Librarian

Duties:

During attachment, I performed the following duties:

- Organizing information resources
- Disseminating information using INMAGIC computer software and other information sharing means
- I organized serials and disseminated current information to users by routing new serials to relevant users
- I did data entry into the IN-MAGIC
- I provided information services to the library clients and helped in determining the most relevant information and the most appropriate format for dissemination. I also trained library users on how to access information from various information resources.

2002: United States International University-Africa (USIU-A) Library

Position held: Trainee Librarian

Duties:

I performed the following duties:

- Acquiring library information resources:
- Cataloguing and classifying library stock
- Receiving and lending books to users
- Charging over due charges for library materials
- Offering reference services to the library users

1999: Meru National Library

Position held: Trainee Librarian

Duties:

I performed the following duties:

- Registering new library users
- Receiving and lending books to users
- Organizing library information resources
